## Myra Robertson Book of the Year Winner!

### What parents said about this book

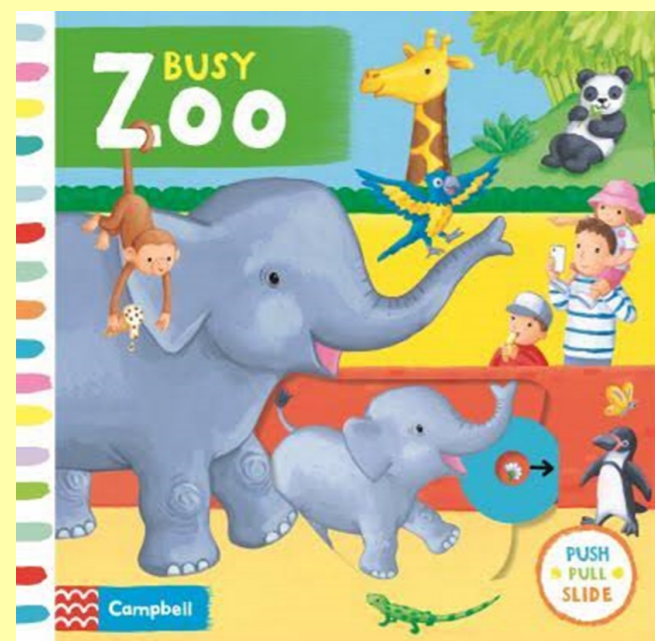

"This book is really good for toddlers. It keeps them entertained for a long time because it has moving pictures and is full of animals. It is very colourful, and children love to stare at it. Personally, I love this book."

"Loved the push and pull slides."

"Yes, because the push/ pull slide pages make it more fun to read to a baby. It also features animals, which helps a baby learn and memorise their names."

"Clear text, bright pictures, and most kids like animals. I especially liked the adults on their phones – very realistic!"

"Lovely pictures and to slide them and play. It makes a great companion for a little baby"
